Going Green at Home

\$99

Step into a green lifestyle! In this course, you'll learn how to reduce your carbon footprint by making simple changes that benefit the environment and your own health.

And that's not all—you'll learn how to save money, too. You'll get smart tips for buying eco-safe and energy-efficient products on a budget, and you'll discover creative ways to reuse items you once tossed out. In the process, you'll discover that making your home green can be both fun and cost-effective.

Because good nutrition is important to a green lifestyle, you'll find lots of ideas for healthy eating and cooking. In addition, you'll get great tips for environmentally-friendly decorating and cleaning.

If you're looking for practical "going green" ideas for your home, this course will cover all the bases. By the time you're done, you'll know how to make your living space eco-friendly from top to bottom!

Requirements:

- Internet access
- e-mail
- Microsoft Internet Explorer or Mozilla Firefox Web browser
- Adobe Flash (free download at adobe.com)
- Adobe Acrobat (free download at adobe.com)
