## **SUSTAINABLE ENERGY & GOING GREEN**

Thousands of new 'green jobs' are expected to be created in the U.S. making *now* the perfect time to learn the skills needed to get a job in this exciting industry.

Edison State College has partnered with *ed2go* to offer on-line courses designed to provide the workforce skills necessary to expand your career/education within the 'green jobs' industry --- some courses cost as little as \$99.00.

Currently we have the following on-line, non-credit courses available:

- ✿ Going Green at Home
- ✿ Going Green in the Work
- ✿ Biofuel Production Operations
- ✿ Building Analyst Quick Start
- ✿ Certified Green Supply Chain Professional
- ✿ Certified Indoor Environmentalist
- ✿ Certified Indoor Air Quality manager
- ✿ Natural Gas Plant Operations
- ✿ Performing Comprehensive Building Assessments
- ✿ Principles of Green Buildings
- ✿ Solar Power Professional
- ✿ Senior Certified Sustainability Professional
- ✿ Wind Energy Professional
- ✿ Purchasing Fundamentals (Includes 'buying green')

**YOU CAN REGISTER AND FIND MORE DETAILS FOR THESE
