

Collier Campus – Center for Continuing Education

BASIC LANGUAGE SKILLS **Preparing to Learn a New Language** (A Different/Innovative Way to Enhance your English Skills)

Join in and prepare yourself to enroll in a language course. You will find this course to be an innovative path toward learning a new language.

It is an optimal method developed in Europe by a French professor which enables you to learn a foreign language. It's a **personal, direct** and **lively** method called “**PDL**”.

This method reactivates your spontaneity, creativity and intuition which escorted you while learning your mother language. It uses the same strategies, listening, perception, understanding, analyzing and syntheses as your mother language.

- You react spontaneously without translating into your mother language.
- Special exercises will help you to learn the melody, accent and intonation.
- In a very lively and interactive way you will learn without books telling your own stories.
- Your individual stride will determine the pace and progress of your learning. Each member will be moving in one's own pace assisted by the trainer.
- Although it is in a group, it is tailor made for each participant.
- Relaxation, breathing and perception exercises will stimulate a pleasant atmosphere which boosts the participant's concentration, perception and alertness.

You will be able to use the above learned methods and techniques in your daily -

business and private - life. 

Instructor: Qudsiya Ahmad

Qudsiya works intuitively with people, meeting them where they are. Her passion and delight is to support someone on their journey and discovery of who they are, what they want to do and where they want to go. She thoroughly enjoys her work and feels it is a great privilege to be part of the process which supports individuals to discover their power and realize their potential. Her style is light, easy gentle, yet very perceptive, intuitive and challenging in a non confrontational way. She listens intently and acts as a reflector and mirror for the person, enabling clients to see and understand and thus make better choices.
