Command Spanish On-Line

Command Spanish Inc. is the largest training company of its kind in the United States. It is the country's # 1 creator and premier provider of occupational Spanish language programs.

Here are the web-based Spanish language training courses that the student can take whenever and wherever they want, because they are asynchronous and non-instructor-led. These programs were designed to be efficient, effective, and not teacher-bound. Moreover, the student takes the course at his/her convenience and pace, not the institution's convenience and pace.

The following Command Spanish® e-Training courses are available online NOW:

- Spanish for Financial Institutions
- Spanish for Law Enforcement Officers
- Spanish for Construction Supervisors
- Spanish for the Community
- Spanish for Pharmacy Personnel
- Spanish for the Workplace
- Spanish for Hospital Nurses
- Spanish for Library Personnel
- Spanish for Real Estate Sales
- Spanish for School Teachers

With Command Spanish® e-Training Programs, you can:

- promote better communication in the work environment;
- increase safety in the workplace;
- enhance workers' job performance;
- decrease or remove communication barriers;
- receive cost-effective instruction without leaving your house; and
- provide better service to persons in the Hispanic community.

Command Spanish® online courses are designed to be efficient, reliable, and effective. These are one-of-a-kind programs. For many, the convenience and benefits of e-Training are too good to pass up.

All programs are based on our exclusive Language Power-Lock System™.

What is the Language Power-Lock System™? The Language Power-Lock System™, created by Command Spanish®, Inc., revolutionizes language e-Training. Seven brain-compatible, interactive processes unite to provide contextualized, purposeful learning opportunities. The Language Power-Lock System™ employs an integrated “switchback method” to engage the learner through visual, auditory, and psychomotor pathways. These interactive learning processes provide adult learners with an easy, user-friendly, effective system for the learning and long-term retention of practical Spanish language for the workplace.

Using the Language Power-Lock System™, developed by Command Spanish®, Inc, e-Training programs employ a wide variety of drills, exercises, and activities to ensure student mastery of the material. Importantly, each program includes a “record-back” option that allows the learner to compare the quality and accuracy of his or her Spanish with that of native Spanish speakers.

Command Spanish® e-Training programs are:

- Self-Paced (You, not an educational institution, decides at what pace you will take the course.)
- Asynchronous (You can start the course on any day, at any hour.)
- Non-Teacher-Led (You are not dependent on the availability of a teacher.)
- Based on Adult Education Principles
- Economical (You save gas and time by not commuting to and from class.)

All e-Training courses feature:

- Work-Specific Language;
- Non-Grammar Based Materials;
- Phonetic Encoding;
- Generic Spanish;
- One-Way Communication; and
- Diagnostic and Screen Questions.

Upon completion of each course, the learner will have immediate access to and be able to print his or her own personalized Certificate of Completion.

Cost: \$99 per class
