### DECORATIVE PAINTING TECHNIQUES: “TRICK THE EYE” /TROMPE L’OEIL PAINTING

Learn the artistry of creating the illusion of three dimension convincingly on a two dimensional surface. Trompe’ L’oeil alludes to “Trick the Eye”. Architectural details including pillars, columns, stonewalls, or sculptural details of decoratively carved moldings, etc, are popular decorative elements that can add richness and sophistication to interiors. The painted detail looks real and complex, yet creating the effect is simple to learn. Possibilities are endless in terms of subject and design and students will learn how to develop a theme as well as effectively paint three dimensionally. This class is offered for the student that wants to become a professional as well as the artist at heart who wants to create their own unique space at home.
