### Digital Photography- THE EYE OF THE PHOTOGRAPHER

So many people get new cameras and besides looking into the lens and clicking the buttons, they don't truly understand how to take a photograph. This is a non-technical digital photography course that is focused on the aesthetics of composition and lighting. With his artist's eye and his extensive background in photography, Herb Sklar will help you take better pictures. He'll be using lectures, examples, and focused practice. The class assumes you can use your digital camera.

**This course will run for six (6) weeks with 120 minutes sessions each week. Please bring your camera to class.**
