

## *Center for Professional Development*

### **Firearms & Cartridge Identification Seminar**

This course is designed for professionals working in the legal field in various capacities (police officers, crime scene investigators, detectives, attorneys, etc.), as well as students who are seeking to pursue a career in the legal/criminal justice field, as well as members of the general public with an interest in the subject. This course offers a unique insight into this broad and fascinating topic.

NOTE: Functional, real firearms and ammunition are used as part of this seminar. The greatest and utmost care is exercised to ensure that safety is the top priority and an unsafe situation does not occur.

#### Course Objectives:

- Basic firearms & Cartridge nomenclature & terminology
- Legal definitions affecting firearms and ammunition
- Clarification of the identification of small arms ammunition
- Identification of unknown firearms
- Dispelling commonly held myths, rumors, and innuendoes about firearms & ammunition
