

## Center for Professional Development

### How to Paint Murals

This course offers a step-by-step approach to the methods and techniques used to create murals. This course is designed to teach students the methods and techniques to creating murals. Murals can be decorative in nature adding a mood and/or enhancing a theme to a room, or they can have the illusion of spatial depth making a room feel more expansive. Students will learn how to develop and design a theme and transfer it to scale. They will also learn about atmospheric perspective in creating the illusion of spatial depth in a mural, as well as, learn the techniques to create false openings such as windows and doors. Included in this course are methods on how to fabricate faux stone walls, arches, pillars or columns, etc. This course is offered for the student that desires to become a professional, or the artist at heart who wants to create their own unique space at home.
