

## Center for Professional Development *Introduction to Macintosh OS X*

This introductory course explores the basic functionality of the Mac OS X operating system. When you move into a new home, you have to clean up, arrange the furniture, do a few repairs, and tweak the lighting before you can finally settle in. Your Mac is no different. OS X is loaded with ways to customize your system and how you use it, making the time you spend in front of the screen infinitely more productive.

We will explore the OS X interface, see how to change the way things look and work, and explore some basic applications and processes including:

- I-Tunes
- Photos
- Email
- Cameras
- Printers

***\*Apple Computers welcome, but not required.***

**Dates:** Tuesdays and Thursdays

- January 12<sup>th</sup> – 28<sup>th</sup>
- February 16<sup>th</sup> – March 4<sup>th</sup>
- April 13<sup>th</sup> – 29<sup>th</sup>
- May 18<sup>th</sup> – June 3<sup>rd</sup>
