Center for Professional Development

LEED AP Building Design & Construction Exam Prep

This course covers the largest and broadest of the US Green Building Council's LEED rating systems, LEED BD+C, which is for new construction and major renovations of existing buildings. Students will learn the fundamentals of sustainable sites, water efficiency, energy & atmosphere, materials & resources, and indoor environmental quality.

The class includes a credit by credit overview of each of the credits in the LEED rating system as well a look into the processes and procedures associated with attaining LEED certification for a building.

This course is appropriate for architects, engineers, builders, contractors, developers, interior designers, landscape architects, lawyers, and finance professionals interested in learning more about LEED certification for new buildings and major renovations.

Dates: Fall 2010, Dates TBA

Time: 9:00am to 5:00pm

Cost: \$595

Location: Edison State College, Charlotte Campus, room to be announced
