Learn to Draw with Silverpoint

Create luminous drawings with Silverpoint media. Silverpoint media facilitates delicate, finely nuanced marks that create a particular luminosity that cannot be achieved with graphite or charcoal. This method of drawing was prevalent among the old masters and creates interesting effects for contemporary subjects. The silverpoint stylus or tool is similar in appearance to a mechanical pencil; however it holds a silver point instead of lead or graphite. This class is for the intermediate and advanced level student.

Dates: Thursdays (8 week sessions)

- September 9th – November 4th, 2010

Time: 1pm-4pm

Cost: \$180 Plus Materials (List supplied at registration)

Location: Edison State College, Lee Campus, room to be announced

Instructor: Catherine Lucas

Seats are limited, so register today!

Advance registration and payment is required
