

EDISON STATE COLLEGE

HENDRY/GLADES CENTER

Center for Professional Development

PHLEBOTOMY TECHNICIAN

This 7 week program is designed for persons employed or those who plan to be employed by a licensed clinical laboratory or public health department. The course combines 48 hours of classroom instruction with a 40-hour off-site clinical externship coordinated by Boston Reed, to provide students with a comprehensive learning experience.

Lectures include but are not limited to the theory, anatomy and terminology pertaining to the circulatory system, specimen collection, risk factors and complications and quality assurance in specimen collection. Practical instruction provides hands-on training in venipuncture technique with procedures verified through a skills check-off system.

The 40-hour externship includes at minimum 100 successful venipunctures and 10 skin punctures. Upon completion of the program the student will receive a certificate of completion.

Includes textbooks, course materials, externship placement and certificate of completion.

Dates: Fall 2010- Dates TBA
