

How to Find a Book

The books in this library are arranged on the shelves according to the Library of Congress Classification System, which separates all knowledge into 21 classes (subjects). A letter of the alphabet identifies each class. Subclasses are identified by combinations of letters.

Use LINCC to search for books by subject. Type **s=subject** or (example) **s=almanac**
You may also browse the subject areas below.

Reference books are located on the 1st floor of the LR and Circulating books are on the 2nd floor of the LR.
